

Employee Relations | Leadership

Building respect through consistent performance & behaviour management.

MyEms is designed to enable leaders, in conjunction with industry expert training, to consistently recognise and manage employee behaviour and performance. Providing leaders with the confidence and skills to consistently manage and drive performance and behaviour within their teams will enable them to build respect from team members, peers and superiors.

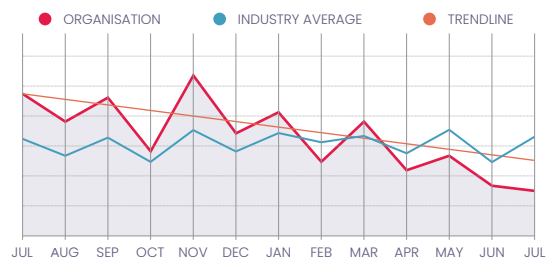

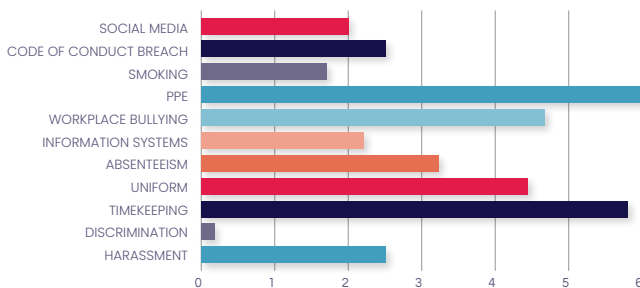

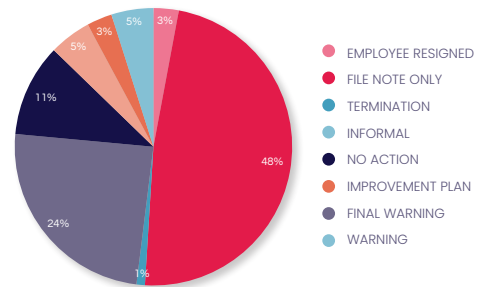

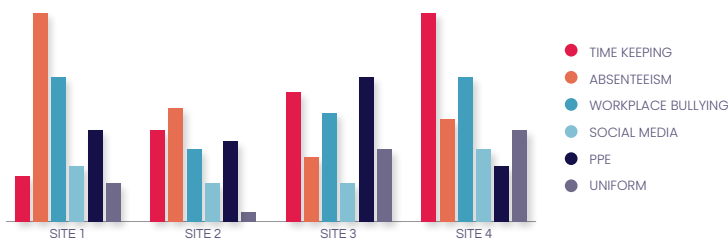

MyEms content, processes and included training are maintained by industrial and employee relations experts to meet ever-changing workplace legislation and industry best practice.
